

HEAR ME ROAR

If the thump of a V-Twin motorcycle just doesn't do it for you, Sabertooth Motorcycles may be able to supply the power between your legs you've been looking for with it's '09 lineup of V-8 motorcycles. Seen here is the Wild-Cat 427 with a whopping 550hp and 540 lb-ft of torque. If this doesn't make your girl purr then maybe she's just not that into you. www.sabertoothmotorcycles.com
